Robin Hill Farm County Park November 2022 Storm Recovery Update

Approximately one year ago, Robin Hill Farm County Park (RHF) experienced a substantial storm, leaving the park trail system unsafe and largely impassible. County parks staff, private sector, and non-profit organizations have endeavored to restore the park's appearance and functionality.

During the month of December 2023, County Staff, the Weekday Wonders Work Crew Volunteers, and a grant-funded crew from the State of Washington Conservation Corps will process any remaining storm-related brush piles and determine if remaining stumps, logs, and root balls should be attended to or left for habitat according to The Washington State Department of Natural Resources (DNR) and/or United States Forest Service (USFS) recommendations.

In late December, after the above-mentioned residual storm restoration has been completed, resurfacing of equestrian horse trails with wood chips will commence. Historically, wood chips have been applied to delineate equestrian trails from pedestrian and bicycle trails at Robin Hill Farm County Park.

Note: a section of the pedestrian trail just south of The Park Pinnell Parking lot that was previously covered with chips will have the chips removed in preparation for a future application of gravel compliant with the United States Forest Service (USFS) and State of Washington Department of Natural Resources (DNR) specifications.

In the winter months of 2024, the Clallam County Park Department and Park Board will collaborate to determine additional revegetation needs and efforts and ensuing park management actions.

For additional questions, comments, or volunteering, contact us by phone at 360.417.2291 or email at web_parks@clallamcountywa.gov
