

Health and Human Services - Administration 00100.513.

Mission Statement

Clallam County Health and Human Services (CCHHS) is dedicated to promoting and protecting the health, safety, and quality of life for all people in Clallam County.

Function

- Responsible for the effective and efficient administrative operations of the department including human resources, payroll, accounts payable and receivables, contract management, policies & procedures, staff to Board of Health and various other internal and external boards and committees.
- Communication: Public information is a planned component of all HHS programs and activities. Urgent public health messages are communicated quickly and clearly. Maintain emergency communication through Everbridge (statewide emergency communication system).
- Leadership and Community Involvement: Active involvement in the community; create and maintain collaborative partnerships to address community health risks and issues, prevention priorities, health disparities, and gaps in healthcare resource/critical health services.
- Monitoring Public Health Threats: A monitoring and reporting process is maintained to identify emerging threats to the public's health. Health Officer oversees investigation and control procedures that are in compliance with regulations. Provide education, information, investigation, permit/license conditions, and appropriate enforcement actions.
- Community Health Assessment: Data about community health, environmental health risks, health disparities, and access to critical health services are collected, tracked, analyzed, and utilized along with review of evidence-based practices to support policy and program decisions.
- Financial Management Systems: Effective financial management systems are in place in all HHS sections. Participate in financial audits and reviews. Assure accountable and responsible expenditure of funds and maximize revenue sources. Review fees when appropriate.
- Program planning and evaluation of services and activities; identify specific goals, objectives, and performance measures and establish mechanisms for regular monitoring, reporting, and use of results.
- Assure that Foundational Public Health Services are provided to Clallam County residents through advocacy and policy development with other community agencies, funders, and Legislature.

Trends/Events

Due to the Covid-19 pandemic a number of HHS staff have been reassigned on a temporary basis to programs addressing Covid-19. This has impacted HHS staff ability to fulfil many HHS responsibilities, obligations and a result in reduced hours in grant related projects and related projected revenue.

Increased workload for administration of contracts, budgets, and human resource activities.

Continue review and updating of internal policies and procedures in all sections of the department. HHS has been successful in developing strong partnerships with community agencies, local, state, and tribal governments and other stakeholders. This ensures a network of partners working towards sharing resources and supporting public health.

Ongoing review of internal administrative process and procedures to assure the most efficient and effective use of staff resources. Investigate the possibility of going to multi-year contracts for programs that are funded with local dollars.

Have regular meetings with management staff to review departmental policies and procedures and determine which ones need to be updated or created. Update or create a minimum of five policies and procedures and organize all P&Ps so they are available on the County Intranet.

Continue to foster and create good working relationships within the community. HHS will develop new partnerships with first responders to address a more robust data collection of opioid overdose data.

Continue focus on keeping our community safe from the spread of Covid-19 by working with the public, businesses, and other stakeholders/partners engaging in safe practices for the prevention of spreading Covid-19 infections.

Goals

1. Continue to work with other stakeholders in Olympic Community of Health to address needs of the three counties and improve access to care.
2. Continue working on addressing community priorities and the provision of public health services.
3. Align with state priorities in providing statewide foundational Public Health Services to all citizens in Clallam County.
4. Continue to evaluate programs and services; create efficiencies were needed.
