Box 1220, Port Townsend, Washington 98368, hereinafter referred to as "Jefferson County," and jointly hereinafter referred to as the "Parties."

- A. RCW 90.58.080 requires each county to initiate planning for the Shoreline Master Program (SMP). WAC 173-26-186(8) directs that updated master programs "include policies and regulations designed to achieve no net loss of those ecological functions."
- B. Clallam County has received funding from Puget Sound Partnership ("Partnership") to supplement and augment its Shoreline Master Program (SMP) update to enhance protection of Puget Sound. Clallam County is required to develop policies and regulations that achieve "No Net Loss" (NNL) of ecological functions and seeks to create a framework for assessing and tracking the impacts of development using indicators of ecological function.
- C. Included in the Partnership grant is funding for developing tools to implement and monitor adopted SMPs in Clallam and Jefferson Counties. Clallam County intends to implement this element of the Partnership grant in collaboration with Jefferson County to assist in effectively applying the principles of No Net Loss to Shoreline Master Program implementation.

NOW, THEREFORE, the Parties agree as follows:

- 1. - B. Provide quarterly update reports on activities associated with this project.
 - C. Coordinate and collaborate with Clallam County and the Partnership to support completion of the tasks identified in **Exhibit B**.
 - D. Submit invoices to Clallam County for reimbursement based on amounts payable and billing procedures, as presented in **Exhibit B** and **Exhibit C**, respectively, of the "Shoreline Master Program Effectiveness Study on the North Olympic Peninsula" Interagency Agreement. The total amount to be invoiced by Jefferson County is \$116,500, as follows:

 - iv. Task 6: Maximum amount to be invoiced is 50 percent of the task total, or \$8,000 (subtask 6.a is \$4,000 and subtask 6.b is \$4,000).
3. Clallam County agrees to provide the following:
- A. Manage the Partnership grant
 - B. Reimburse, pursuant to properly completed invoices, Parties for expenses they have incurred during the performance of Tasks 1, 4, 5, and 6 as identified in **Exhibit B**.

The activities performed under the Agreement shall be jointly administered for each of the respective Parties under RCW 39.34.030(4)(a) by the following representatives:
- A. For Clallam County by Clallam County Department of Community Development Principal Planner Kevin LoPiccolo, 223 East 4th Street, Suite 5, Port Angeles WA 98362 (360.417.2322; Fax: 360.417.2443); and;

- B. For Jefferson County by Jefferson County Department of Community Development Associate Planner, Donna Frostholm, 621 Sheridan St., Port Townsend, WA 98368 (360.379.4450; Fax: 360.379.4451).
5. Scope of Services. Following consultation and approval of the Clallam County Department of Community Development, Jefferson County will adhere to all administrative and programmatic provisions in performing the scope of services as described by **Exhibit B**, attached hereto and made a part hereof. The Parties agree to exercise good faith and best efforts to comply with the assignments and deadlines leading to the completion of the identified tasks.
 6. Written Amendments. The Parties, by mutual written agreement, may revise this Interlocal Agreement and its attached scope of services.
 7. Effective Dates. This Interlocal Agreement shall be effective as of the date signed by the last party and expire on the expiration date of June 30, 2021. The Parties agree to extend the foregoing deadlines from time to time as is reasonably necessary and for good cause.
 8. Dispute Resolution. Any dispute between the Parties that cannot be resolved between the Parties shall first be resolved by a conference between the Parties' representatives listed above in Section 4. If that fails to resolve the dispute, then the dispute shall be submitted to the County Administrators for Jefferson and Clallam County for resolution. If submission to the County Administrators does not resolve a dispute between the Parties, then either Party may submit the dispute to mediation to be decided by a mutually agreed upon person or panel. The costs of the mediation shall be equally split between the Parties.
 9. Right to Terminate. This Interlocal Agreement may be terminated by any Party at any time upon not less than sixty (60) days written notice.
 10. Effect. This Interlocal Agreement shall be binding upon the Parties and the Parties shall be held responsible to the agreed upon deadlines.
 11. Personal property. The Parties to this Agreement may after expiration of this grant and in a manner consistent with Section 17 of the US Environmental Protection Agency Cooperative Agreement PO J08801 retain any personal property purchased with these Partnership grant funds.

(SIGNATURES APPEAR ON THE NEXT PAGE)

IN WITNESS WHEREOF, the Parties have caused this Interlocal Agreement to be executed effective the date and year first mentioned hereinabove.

**EXHIBIT B -
STATEMENT OF WORK & BUDGET**

Title: Shoreline Master Plan effectiveness study in the North Olympic Peninsula

Specific Period of Performance: This statement of work covers tasks expected over a period of two years. Tasks and deliverables may have the opportunity to be extended.

Purpose Statement:

This contract addresses a Science Work Action identified by the Puget Sound Science Panel to advance recovery of Puget Sound. The priority action relates to the effectiveness of Chinook salmon recovery and provides funding for projects that "monitor implementation and effectiveness, including cost effectiveness, of Chinook recovery efforts." Located in Clallam and Jefferson Counties, this project will evaluate long-term protection efforts to prevent habitat loss in nearshore areas that Chinook salmon are known to use. The project supports and informs adaptation of strategies and programs to recover Chinook salmon and their habitat, but does not sample or evaluate salmon populations directly.

Local shoreline planning programs incorporate the policies and regulations based on the Shoreline Management Act through a Shoreline Master Program (SMP). Three basic policy areas of the Act aim to protect shoreline use, environmental resources, and public access. Local jurisdictions (i.e., cities and counties) are responsible for implementing an SMP, based on state laws and rules but are tailored to the unique geographic, economic, and environmental needs of each community. SMPs also aim to protect the natural resources and ecology of the shoreline by using a "no net loss" (NNL) standard. The NNL framework is designed to halt or mitigate the impacts to shoreline ecological functions resulting from new development.

Various components of nearshore regulation at the state and local level help execute the intent of the law and influence the impact of development on nearshore habitats. However, nearshore regulation effectiveness is not easily measured directly. To study the effectiveness of shoreline regulations in local jurisdictions, previous work was conducted in Clallam and Jefferson counties to identify measurable NNL indicators that supported the development of SMP policies and regulations designed to achieve NNL. The NNL indicators are used to monitor sites for permitting and implementation compliance. This contract evaluates the effectiveness of recent adjustments in permit outreach and compliance previously identified (Jefferson County) and early compliance and effectiveness (Clallam County) to evaluate the effectiveness of recently implemented SMP updates in Clallam and Jefferson counties. Both counties will share results with interested jurisdictions and use the results to improve their SMPs during the next update. Results from this project will be shared with other jurisdictions to demonstrate how to evaluate the effectiveness of shoreline regulation.

Tasks are described below and referenced in the table with deliverables, dates, and costs.

Task 1 – Clallam and Jefferson Counties

Project Management

Clallam County will develop an interlocal agreement with Jefferson County. Jefferson County staff will invoice and provide deliverables to Clallam County who will invoice under this contract for both counties. A project work plan for both counties will be developed and presented for review by PSEMP during a meeting to be scheduled by PSP. Results of PSEMP review will be incorporated into the work plan. Ongoing project management will include regular (at least monthly) check in calls with PSP project manager.

Task 2 – Clallam County (CC)

Evaluate Effectiveness of the SMP

Clallam County will evaluate the effectiveness of the implementation of SMP policies and regulations to protect shoreline habitat. A kick-off meeting with PSP staff will discuss the project work plan, grant management, and timeline with PSP staff. No net loss (NNL) indicators will be adapted from Jefferson County program to define the shoreline development field form. A database will be developed to manage and track shoreline permits. Indicators will be matched with the assessment questions used to evaluate performance. Approximately 30 permit applications (office task) and approximately 24 construction sites (field review) will be evaluated for compliance. Outreach to the local community will provide information about SMP regulations and relevant changes.

Task 3 – Clallam County

Report results

Clallam County will summarize results on NNL indicators to evaluate success based on application review and permit requirements. The final report will describe data management, analyze indicators measured in the field, evaluate effectiveness of permits to implement SMP guidance, evaluate effectiveness of permits to guide construction, and provide recommendations for other jurisdictions related to adaptive management of monitoring, permitting, and enforcement. A detailed outline, draft report and draft 2-page fact sheet will be provided for review by PSP in advance of final written materials.

Task 4 – Jefferson County

Evaluate Effectiveness of the SMP

Jefferson County will build on Phase I of their NNL monitoring to evaluate the effectiveness of the permit process and compliance of permitted nearshore projects. A kick-off meeting with PSP staff will discuss the project work plan, grant management, and timeline with PSP staff. The County will update NNL indicators as needed to evaluate project status and ecological function; match NNL indicators to assessment questions; evaluate permit compliance with the permitting office; use indicators to track changes on permitted project sites for compliance; and track change in NNL indicators over time. Approximately 80 permit applications (office task) and 30 construction sites (Field review) will be evaluated for compliance. Outreach to the local community will provide information about SMP regulations and relevant changes.

Task 5 – Jefferson County

Report results

Jefferson County will summarize results on NNL indicators to evaluate success based on application review, permit requirements, and permit implementation. The final report will describe data management, analyze indicators measured in the field, evaluate effectiveness of permits to implement SMP guidance, evaluate effectiveness of permits to guide construction, and provide recommendations for other jurisdictions related to adaptive management of monitoring, permitting, and enforcement. A detailed outline, draft report and draft 2-page fact sheet will be provided for review by PSP. A detailed outline, draft report and draft 2-page fact sheet will be provided for review by PSP in advance of final written materials.

Task 6 – Clallam and Jefferson Counties

Present results

Presentations to the Partnership's Science Panel and local planner groups will share results of the project including the effectiveness of SMP regulations to protect nearshore habitat and any recommendations that would be relevant for other jurisdictions.

The CONTRACTOR shall report in writing any problems, delays or adverse conditions that will materially affect their ability to meet project objectives or time schedules. This disclosure shall be accompanied by a statement of the action taken or proposed and any assistance needed by PSP to resolve the situation.
