ATTACHMENT A
Plan of Work
Clallam County
and its agent Clallam County Noxious Weed Control Board
Project for Knotweed Control
July 1, 2010 to June 30, 2011

County Knotweed Control Criteria:

Clallam County through its agent, Clallam County Noxious Weed Control Board, will conduct control work on the knotweed infestations within the watersheds of the Big, Hoko-Lyre, Clallam, Sekiu, Pysht, Dosewallips, Duckabush, Big Quilcene, Hoh, Dickey, Sol Duc, Calawah, and Bogachiel Rivers and Snow, Salmon, Spencer, Lees, Morse, Bagley, Siebert, Valley, Ennis, White, and Peabody Creeks. These are infestations in the riparian areas of the rivers in Clallam and Jefferson counties. The knotweed populations in Jefferson County may only be treated with prior written authorization from Jefferson County, as well as prior written permission for entry and treatment from each landowner or tenant, as specified below in this document.

Treatments will utilize funding allotted by the state legislature for control of knotweed species during the 2011 state fiscal year. Control efforts will be focused on treating all infestations from the headwaters of each river system in a downstream direction, in conjunction with the best integrated management practices known for knotweeds. Control shall include field survey directly associated with areas to be treated. Field surveys in watersheds not listed in this Agreement must be authorized in advance by WSDA.

Minimum work specifications: Clallam County Noxious Weed Control Board personnel will either control knotweed or subcontract the work. Clallam County Noxious Weed Control Board is authorized to subcontract with the Jefferson County Noxious Weed Control Board, with specifications in compliance with conditions of this Agreement, to control knotweed in Jefferson County. Clallam County Noxious Weed Control Board employees and/or contract crew(s) will use an integrated weed management approach.

All control methods will be employed consistent with the laws, rules and regulations of Washington State, Clallam County (as applicable), Jefferson County (as applicable), the *Noxious Emergent Plant Management Environmental Impact Statement* (EIS) first published in November 1993, and all subsequent amendments to the EIS.

Clallam County, or subcontractors to Clallam County, must enter into a contract with WSDA under which Clallam County, or subcontractors to Clallam County, act as limited agents to carry out noxious and quarantine weed control for WSDA under the "Aquatic Noxious Weed Control National Pollutant Discharge Elimination System Waste Discharge General Permit" (NPDES permit) prior to the performance of any activity pursuant to this Agreement that discharges herbicides directly into streams or rivers, or indirectly into streams, rivers, estuaries, wetlands, along lake shorelines, or in other wet areas. Herbicide treatments may only occur at times allowed under provisions of the NPDES permit and must comply with conditions specified in such permit.

The crew will work closely with the Clallam County Noxious Weed Control Coordinator and the WSDA knotweed control coordinator. All crews will be active in the field from July 1, 2010 to

June 30, 2011, as allowed by the variable growth season of knotweed and any required preparation and conclusion times. Work will only take place on property for which Clallam County, or Jefferson County when applicable, has obtained prior written permission for entry and treatment, utilizing the permission forms provided by WSDA (Attachments C-1, C-2) or any applicable permission form previously approved by WSDA, from the landowner or tenant. The Clallam County Noxious Weed Control Board will also provide access to these properties for the WSDA knotweed control coordinator. Changes made to any permission form must be approved by WSDA prior to the performance of any work on that property undertaken under terms of this Agreement.

Work Crew and Work Hours:

The knotweed control crew will work or be under contract for the county noxious weed control board during the specified period, dedicating their time solely to controlling knotweed in the project area.

The control crew will have one crew leader who will be responsible for coordinating the crew's work, and who will maintain ongoing contact with the county noxious weed coordinator and the WSDA knotweed control coordinator. The crew leader will work in the field at all times with the crew, unless maintenance or other needs require the crew leader to leave the crew unattended. The crew leader will spend no more than 6 hours per week doing work other than knotweed control in the field during the control season.

Equipment:

The knotweed control crew will use all available tools for control, including manual control and herbicide applications, to control knotweed infestations in Clallam and Jefferson counties. The control crew may use equipment provided by other agencies, provided the county noxious weed coordinator and the WSDA knotweed control coordinator agree to the usage of the equipment and materials.

Program Needs Provided by WSDA:

WSDA may furnish the county work crews with herbicide, public information fliers, public notification signs, and other equipment as the WSDA knotweed control coordinator deems necessary. All unexpended items remain the property of WSDA.

Expenditures:

The funds provided for the county knotweed control crew will primarily go towards wages and benefits for one supervising crewmember and two or more field crewmembers, travel expenses for the crewmembers, equipment and supply purchases, and repair and maintenance. All supplies will be used in Washington State and under the supervision of county personnel. Reimbursable supplies covered under this Agreement include: backpack sprayers, machetes, herbicide storage containers, injection tools, safety equipment, raingear, and boots. An inventory list will be furnished to WSDA upon request.

Reimbursable expenses include: vehicle maintenance, cell phone usage, and postage. Expenditures for public outreach activities must be authorized in advance in writing by WSDA. Items such as computer programs, models or other costs not specified in this document will not be reimbursed unless the expenditure is specifically authorized in advance in writing by WSDA.

Coordination:

The Clallam County Knotweed Control Program will be coordinated with state, local and private control efforts.

Deliverables:

The Clallam County Noxious Weed Control Board coordinator will submit a written report to the WSDA Agreement administrator, documenting the work conducted on the sections of the Big, Hoko-Lyre, Clallam, Sekiu, Pysht, Dosewallips, Duckabush, Big Quilcene, Hoh, Dickey, Sol Duc, Calawah, and Bogachiel Rivers and Snow, Salmon, Spencer, Lees, Morse, Bagley, Siebert, Valley, Ennis, White, and Peabody Creeks in Clallam and Jefferson counties, as follows: A season ending report is due December 3, 2010, which will include the following: date(s) of control activities, the type of control conducted, difficulties encountered, preliminary results of the control effort, and photo documentation of selected sites, including before and after treatment photos. The county noxious weed coordinator will supply WSDA with all geographic information system data that is generated as a result of this Agreement. Final payment under this Agreement will not be made until the season ending report is accepted by WSDA.

These deliverables are separate from and in addition to any reporting requirements associated with limited agent status under WSDA's Aquatic Noxious Weed Control NPDES General Permit coverage.
