80	Sheltered workshop. My son benefited greatly from the former Skookum jumprope project. He thrived in that environment. I know that sheltered workshops are considered "bad" but for many IDD adults it is the ideal workplace. When jumprope shut down the idea was that all participants would find jobs in the community. For many of the participants that has not been the case and if it weren't for a certain day program would have had little community interaction ever since.	9/30/2020 6:34 PM
