

Pay to Play will be Law of the land if any shooting range is built in Sadie Creek area.

Clallam County Commissioners are trying to establish a shooting range business that charges shooters a fee to access and shoot guns in Sadie Creek area. This means the area will be closed because of **RICOCHET DANGER.**

Currently 1000's of people use the trails at Sadie Creek for multiple motorized and non-motorized activities.

The shooting group (maybe 100 people) promises Sadie Creek trails will be available for non-shooting activities but at what cost? The fees from the few shooters will not be collected when the range is closed.

Not only is Sadie Creek probably the worst place to establish a firing range but it will remove valuable trails and outdoor recreational facilities for use by a few at the expense of many. Contact your Clallam County Commissioners and tell them NO to this huge waste of taxpayers money.
