

## 2022 CONTRACTOR LIST

\* Please note that this list is provided as a service and merely summarizes local contractors who indicated they are willing and able to provide weed control services. It should in no way be construed as an endorsement of any individual or company. Any services rendered, and payment thereof, are strictly the result of negotiations between the landowner and the contractor. You are advised to seek referrals from satisfied customers.

### CHEMICAL CONTROL\*\*

All contractors on this list have at least one employee with a Washington State commercial applicators license current through 12/31/2021

\*\*Persons who use restricted use pesticides, or persons who professionally use, sell, or provide advice on the use of pesticides in Washington must have a

Washington State Department of Agriculture (WSDA) issued pesticide license for the type of work they do and for the areas of pest control they work in. *WSDA Pesticide Laws and Safety*

### Be aware, it typically takes one or more treatments per year over 3-5 years to fully eradicate a Noxious Weed infestation

Things to consider when hiring a contractor: Is there a contract or assurance of effectiveness? Does the contractor know how to accurately identify the plant?

Is the herbicide being used appropriate for the plants and site being treated? Is it the appropriate time of year to treat? Contact the NWCB if you have questions.
