Clallam County NWCB

Why bother with the OIWG report?

- Why we put together the OIWG report
- Do people find it useful; should we continue producing it?

Information Requested

- Agency
- Crew used and leader's name
- Waterway or location
- River miles treated
- Acres searched (protected)
- Acres treated
- Number of stems (or cover class)

Information Requested

- Herbicide used
- Herbicide Rate
- Amount of concentrate
- Total amount of mix applied
- Application method

Information Requested

- Number of parcels treated
- Number of parcels surveyed
- Number of landowner permissions
- Number of landowners helped
- Numbers of public\private landowners
- Other weed species treated

Information Requested

- Narrative
- Specific questions on work undertaken
- Suggestions for information requested?
- What spray record are people using?
- When is the best time to ask for data?
